Description of Demolition-work	

By signing this document or affidavit, you here by acknowledge and confirm you have read section 117.3 of the 2015 Virginia USBC. You also agree and confirm that you will adhere to and meet the requirements of section 117.3 of the 2015 Virginia USBC. This document shall serve as the certification requirement in 117.3.

In addition, you acknowledge and agree that the requirements of section 110.3 of the 2015 Virginia USBC will be met, if applicable (Asbestos Inspection Certification).

117.3 Demolition of buildings and structures. Prior to the issuance of a permit for the demolition of any *building* or *structure*, the *owner* or the *owner's* agent shall provide certification to the building official that all service connections of utilities have been removed, sealed or plugged satisfactorily and a release has been obtained from the associated utility company. The certification shall further provide that written notice has been given to the *owners* of adjoining lots and any other lots that may be affected by the temporary removal of utility wires or the temporary disconnection or termination of other services or facilities relative to the demolition. In addition, the requirements of Chapter 33 of the IBC for any necessary retaining walls or fences during demolition shall be applicable and when a *building* or *structure* is demolished or removed, the established grades shall be restored.

Note: all applicable provisions of section 3303 (demolition) of the 2015 Virginia USBC shall apply and must be adhered to. **No burning of construction debris is permitted.**

All construction debris shall be disposed of in an approved manner.

Asbestos Certification Form

Building 911 Address	
Tax Map	

This form must be completed for all renovation and demolition projects.

Read the choices below, check the appropriate box, and certify the provided information by signing below.

- The initial permit for the building was issued on or after January 1, 1985, therefore the building is exempt from asbestos inspection requirements. (See § 36-99.7 A of the Code of Virginia.)
- The renovation or demolition involves a single-family dwelling or residential housing with four or fewer units not renovated or demolished for commercial or public development purposes, therefore the building is exempt from asbestos inspection requirements. (See § 36-99.7 C of the Code of Virginia.)
- The combined amount of regulated asbestos-containing material involved in the renovation or demolition is less than 260 linear feet on pipes or less than 160 square feet on other facility components or less than thirty-five cubic feet off facility components where the length or area could not be measured previously and is, therefore, exempt from asbestos inspection requirements. (See § 36-99.7 C of the Code of Virginia.)
- Affected portions of building have been inspected by an individual licensed to perform such inspections pursuant to § 54.1-503 of the code of Virginia and no asbestos-containing materials were found. (See § 36-99.7 A of the Code of Virginia.)
- Affected portions of building have been inspected by an individual licensed to perform such inspections pursuant to § 54.1-503 of the code of Virginia and appropriate response actions required by § 36-99.7 A of the Code of Virginia will be undertaken. (See § 36-99.7 A of the Code of Virginia.)

Asbestos certification form for re-occupancy required before final approval.

- The building is not a school building and the renovation project consists only of repair or replacement of roofing, floor covering or siding materials and the materials to be repaired or replaced are assumed to contain friable asbestos and the asbestos installation, removal or encapsulation will be accomplished by a licensed asbestos contractor. (See § 36-99.7 B of the Code of Virginia.) **Asbestos certification form for re-occupancy required before final approval.**
